Linux for Absolute Beginners

Are you a Linux beginner or IT professional looking to become an expert at Linux administration and the Linux command line? This course will introduce you to creating your first virtual machine and the command syntax for Linux. Learn how to become a system administrator with this Linux essentials course. Gain insight into the fact that every time you run a command, you have an option as well as an argument.

Modules Studied

Module 1: Linux System

Module 2: Linux Command Line

Module 3: Linux Administration

Module 4: Course assessment
